This page is located on the SimsWiki. To view it in it's original form, click here ([http://www.simswiki.info/wiki.php?title=Sims\\_3:Large\\_Address\\_Aware/CFF\\_Explorer](http://www.simswiki.info/wiki.php?title=Sims_3:Large_Address_Aware/CFF_Explorer)).

1. Download and install CFF Explorer (<http://www.ntcore.com/exsuite.php>) .
2. **Make a backup of your original exe just in case something goes wrong.**
  - o Right Click on the exe file **TS3W.exe** under C:\Program Files (x86)\Electronic Arts\The Sims 3\Game\Bin
  - o Choose **Copy**.
  - o Right-click in an empty space in the folder and choose **Paste**.
3. Run **CFF Explorer**.
4. Click the folder icon or go to **File -> Open** and browse your PC for **TS3W.exe**.

9. Overwrite the file when it asks you to.

**NOTE: If you use this method, you need to keep the backup of the exe file you changed with CFF Explorer. When you update your game, you will need to copy the backup exe back to folder and replace the edited exe file.**

1. Go to the folder which has the executable file you changed.
2. Delete the current \*.exe file.
3. Rename the backup executable back to the original name, now you can safely update/upgrade.
